The anthology spans a multitude of themes including dystopia, interstellar travel, exploration of unknown worlds, and the existential ponderings of humanity in the face of apocalypse, realized through a diverse range of literary styles from the suspenseful and foreboding atmospheres crafted by H. P. Lovecraft to the intricate societal critiques embodied by George Orwell. This collection not only showcases the broad spectrum of speculative fiction but also highlights standout pieces that have fundamentally shaped the course of science fiction literature. Literature for Today's Young Adults Kenneth L. Donelson, Alleen Pace Nilsen, 1997 With 140 fewer pages than the fourth edition the fifth obviously has been tightened it's partly in the format with narrower margins and less white space Otherwise some text has been rephrased or rearranged and topics for example adolescent psychology given shorter shrift Coverage of Holocaust literature has been expanded and discussion of problem novels improved Sports books have been dumped in with humor movies and other stuff including humorous poetry which it seems the authors feel is the only kind teens read for pleasure other types of poetry as well as short stories and drama are relegated to the English classroom coverage of which has been enlarged The chapter on sf and fantasy is good on historical aspects but weak on today's writers A short list of Internet listserves and Web sites has been incorporated as part of using YA literature in the library Once again updating of appendixes seems spotty Nevertheless this is useful as a resource for youth librarians and a tool for teaching YA literature Sally Estes
