Wonder-Full Education Kieran Egan, Annabella I. Cant, Gillian Judson, 2013-07-24 For many children much of the time their experience in classrooms can be rather dull and yet the world the school is supposed to initiate children into is full of wonder This book offers a rich understanding of the nature and roles of wonder in general and provides multiple suggestions for to how to revive wonder in adults teachers and curriculum makers and how to keep it alive in children Its aim is to show that adequate education needs to take seriously the task of evoking wonder about the content of the curriculum and to show how this can routinely be done in everyday classrooms The authors do not wax flowery they present strong arguments based on either research or precisely described experience and demonstrate how this argument can be seen to work itself out in daily practice The emphasis is not on ways of evoking wonder that might require virtuoso teaching but rather on how wonder can be evoked about the everyday features of the math or science or social studies curriculum in regular classrooms **The**

 Sheldrick Ross,2014-06-27 Based on years of ground breaking research this book supplies a look at the unique relationship
 between each text and the individual reader that results in a satisfying pleasurable and even life changing reading
 experience Following up on her critically acclaimed Reading Matters What the Research Reveals about Reading Libraries
 and Community Catherine Sheldrick Ross takes a new look at pleasure reading through 30 thought provoking essays based
 on themes arranged from A to Z In short lively chapters she discusses topics ranging from Alexia Bad Reading and Changing
 Lives to Romance Fiction Self help Titles Vampires and Year of Reading Drawing on her own research as well as other
 published sources Ross comments on the significance of each theme provides examples of the phenomenon and develops the
 topic chronologically through further examples or through reversals The essays are unified by an underlying theory of
 reading that views readers as sense makers actively engaged in reading themselves into the text and reading the texts back
 into their own lives It gives educators and librarians insights into their roles with readers and offers a message about the
 importance of pleasure reading A short list of resources for further reading is supplied with each topic Romantic
