Comparative Legal Studies: Traditions and Transitions Pierre Legrand, Roderick Munday, 2003-08-14 The 14 essays that make up this 2003 volume are written by leading international scholars to provide an authoritative survey of the state of comparative legal studies Representing such varied disciplines as the law political science sociology history and anthropology the contributors review the intellectual traditions that have evolved within the discipline of comparative legal studies explore the strengths and failings of the various methodologies that comparatists adopt and significantly explore the directions that the subject is likely to take in the future No previous work had examined so comprehensively the philosophical and methodological foundations of comparative law This is quite simply a book with which anyone embarking on comparative legal studies will have to engage **La gouvernance des sociétés anonymes dans la zone O.H.A.D.A** Issa

to Security Interests in Intermediated Securities Under OHADA Law Justin Monsenepwo, 2023-01-03 In recent decades the technical handling of custody business in the OHADA region has undergone a lasting change There has been a shift from a direct to an indirect holding system in which the interests of an investor in respect of the underlying securities are recorded in the books of an intermediary such as a bank or a securities firm Under the law of all states within the OHADA region the traditional conflict of laws rule for determining the enforceability of a securities pledge that occurs in the indirect holding system is the lex rei sitae or the lex cartae sitae or the lex situs rule However the traditional lex rei sitae rule cannot be appropriately applied to a system where the dematerialised securities are held through multiple layers of intermediaries located in different jurisdictions Yet until the intermediated system and the collateralisation of intermediated securities in the OHADA region will continue to operate in somewhat legally murky waters leading to more instability in the financial markets Therefore Justin Monsenepwo aims to find an appropriate and consistent approach that reflects the reality of the indirect holding system in the OHADA region **The Cambridge Handbook of International and Comparative Trademark Law**

Irene Calboli, Jane C. Ginsburg, 2020-09-24 Trade in goods and services has historically resisted territorial confinement but trademark protection remains territorial albeit within an increasingly important framework of multilateral treaties

Trademark law therefore demands that practitioners policy makers and academics understand principles of international and

comparative law This handbook assists in that endeavour with chapters describing and critically analyzing international and regional frameworks and providing comparative perspectives on the substantive issues in trademark law and related fields such as geographic indications advertising law and domain names Chapters contrast common law and civil law approaches while focusing on the US and EU trademark systems in light of the role these systems have played in the development of trademark laws Additionally this handbook covers other jurisdictions both common law and civil law on the Asia Pacific African and South American continents This work should be read by anyone seeking a better understanding of trademark law around the world

Le contrôle de la gestion des sociétés cotées Matthieu Zolomian, 2020-03-06 Les sociétés cotées se caractérisent par une grande atomisation de leur capital De ce fait une divergence d'intérêts peut apparaître entre les dirigeants les composantes de la société L'action des dirigeants peut alors être scrutée par les parties qui contrôlent la gestion de la société Un examen des activités sociales peut se profiler avant même que des politiques ne soient conduites Après les décisions préalables aboutissant la nomination et la rémunération des dirigeants sociaux il apparaît qu'un contrôle préventif de la gestion s'applique certaines opérations Il est alors question de veiller la préservation de l'intérêt social mais aussi d'autres intérêts collectifs Les pouvoirs des dirigeants sont alors en partie limités Après avoir pris connaissance de toutes les informations relatives la conduite des affaires sociales l'assemblée générale peut tenter de mettre en lumière d'éventuels dysfonctionnements Il est alors temps de judiciariser la surveillance des activités sociales
