administrative law there is no systematic body of rules similar to those characteristic of European civil codes. General principles are therefore of fundamental importance. This volume, the sixth in the series concerning the common core of European administrative laws, explores this importance through two strands. Firstly, it examines in detail the relationship between general principles of law such as due process and sector specific rules established by legislative and regulatory provisions, for example in licensing and disciplinary matters. Several questions about the nature of general principles emerge through this analysis: Are general principles about filling gaps? Or do they have a foundational role because they give meaning to the values that are shared by European legal systems such as respect for the rule of law and for fundamental rights? Secondly, this volume also explores the interaction between commonality and diversity in European administrative law. It considers whether there are shared standards of administrative conduct, including the duty to give reasons, or if there are fundamental differences with regard to non-European legal systems such as that of China and Venezuela. These questions are investigated through factual analysis based on a set of hypothetical cases which are discussed by national experts. This book then scrutinizes these questions to determine how commonality and diversity have extended and interact with one another within and across legal systems both diachronically and synchronically over the course of a century. It shows that there are both unexpected areas of agreement between the European legal systems, notably concerning the right to be heard expressed by the maxim *audi alteram partem*, and the duty to give reasons, and there are also areas of disagreement, for example as far as the right to remain silent vis-à-vis the administration that is *nemo tenetur se detegere* is concerned.

L'Etat dans la construction doctrinale du droit administratif Elise Fraysse, 2022-05-02 La question des rapports entre l'Etat et le droit administratif est au cœur de cet ouvrage. Par le prisme d'une approche historique et doctrinale, ce premier tome de 1804-1870 tente de clarifier certaines interrogations cruciales : quel fut le poids de l'Etat dans la construction de cette discipline? Le droit administratif donne-t-il voir une certaine conception de l'Etat, et si oui, laquelle? L'enjeu est de montrer qu'en dépit des apparences, le droit administratif n'est pas seulement un droit technique, il est également un droit politique. Il repose en effet sur une certaine conception de l'Etat et du libéralisme. Plus encore, cette recherche contribue à montrer que loin d'être un droit uniquement jurisprudentiel, le droit administratif doit, en grande partie, sa construction à la doctrine. Partant, cette étude se veut plus largement traiter le point de départ d'une réflexion sur l'enseignement du droit public aujourd'hui.

Droit administratif Michel Degoffe, 2025-09-02 Le droit administratif d'aujourd'hui est le résultat d'une histoire. Il convient donc de présenter en premier lieu l'histoire de la formation de la juridiction administrative et la naissance de la dualité de juridictions. Le Conseil d'Etat a géré des règles spécifiques applicables à l'action administrative, le droit administratif. Mais ses marges de manœuvres se sont considérablement réduites ces trente dernières années avec l'émergence de la jurisprudence du Conseil constitutionnel. Le Conseil d'Etat doit concilier la primauté de la Constitution qu'il affirme avec la primauté du droit européen revendiquée par la Cour de justice. Une fois ces règles posées, les notions essentielles du droit administratif sont analysées de finition et régime de l'

acte administratif unilatéral et du contrat administratif règles fondamentales applicables la mise en œuvre de la responsabilité administrative Public Cet ouvrage s'adresse aux étudiants en L2 de Droit Michel Degoffe est professeur de droit public à l'université Paris Cité Il y enseigne le droit administratif et le droit de l'urbanisme **Droit administratif** Jacques Petit, Pierre-Laurent Frier, 2025-08-26 **Revue française de droit administratif**, 2006 **Les Livres disponibles**, 2003 La liste exhaustive des ouvrages disponibles publiés en langue française dans le monde La liste des auteurs et la liste des collections de langue française *Le régime juridique du patrimoine religieux* Anne Fornerod, 2013-11-01 Le patrimoine religieux fait l'objet d'un vaste consensus social quant à la nécessité de le protéger Le régime juridique n'est cependant pas exempt de tensions entre l'usage religieux qui demeure et les usages culturels qui s'y déroulent À l'exigence initiale de conservation s'est ajoutée celle de transmettre un patrimoine travers sa mise en valeur auprès du public Cet enjeu de la valorisation du patrimoine invite à revisiter le régime juridique relativement stable et ancien des édifices culturels et monuments historiques **Précis de droit administratif** Pierre-Laurent Frier, Jacques Petit, 2006 Un droit spécifique applicable une partie de l'action administrative s'est développée en France permettant dans le cadre d'un compromis historique de soumettre progressivement la puissance publique au droit L'élude de ce droit administratif met en lumière le jeu constant qui se déroule entre trois facteurs qui agissent : l'organisation de l'administration pour quoi agit-on missions de service public et de police et comment agit-on moyens juridiques distincts du droit privé utilisés acte unilatéral et contrat administratif Et pour répondre il faut connaître en amont les sources de ce droit et en aval les mécanismes de contrôle par la justice administrative La présentation de ces données est à la fois statique et dynamique Analysant les solutions du droit positif et leurs raisons d'être elle montre pour chaque thème les profondes évolutions qu'elles ont subies dans le cadre d'un droit administratif en mutation De nombreux facteurs ont eu en effet une profonde influence sur les principes d'agissements jusqu'à la prégnance sans cesse accrue du droit constitutionnel et du droit européen sur les sources du droit administratif et les mécanismes de contrôle juridictionnel notamment transformation des structures de l'État et de ses rapports avec les collectivités locales conséquences de la construction européenne et de la libéralisation de l'économie sur la conception et le régime des services publics en particulier nouvelles exigences de démocratie de la part du citoyen administré qui se traduisent par une modification du régime des actes administratifs et de nouvelles implications en matière de responsabilité de l'administration *Suffolk Transnational Law Review*, 1997 **La protection juridique des monuments historiques** René-Jean Gourmelen, 2016-09-15 Passion française la protection des monuments historiques trouve sa première écriture avec le décret de la Convention du 16 septembre 1792 Par la suite les dispositions seront approfondies précisées et élargies jusqu'à aujourd'hui Le juge de son côté a bâti une jurisprudence digne de celle du Conseil d'État 20 janvier 2016 M et Md B A Or cette œuvre entre en conflit avec l'objectif de valorisation touristique secondaire dans l'optique de transmission aux générations futures Par l'exposition des règles de protection et la recension de la jurisprudence en matière de monuments protégés cet ouvrage constitue un outil d'aide à la
