**Drink, Drugs and Dependence** J. De Bellerroche, 2002 At a world level addiction and the fall out from substance use is affecting more and more lives Professionals are increasingly being confronted with puzzling multifaceted aspects of substance use whether they work in a clinic the laboratory or the community If you are a member of any caring profession sooner or later you will encounter problems caused by drugs alcohol and tobacco In order to understand substance use and substance users no single discipline can provide all the answers In a novel way this book integrates biological science social science and clinical experience It draws together contributions from experts in these diverse and rapidly growing fields providing the reader with a deeper capacity to engage with problems effectively *Drink Drugs and Dependence* includes thought provoking examples illustrations and test questions to support problem based learning Designed to be read consecutively or as a reference text it will be a welcome resource for all those working in the field of addiction *Drugs, Drink and Dependence* Woody Caan, J. De Bellerroche, 2001-11 [Biologising the Social Sciences](#) David Canter, David Turner, 2015-02-20 You can hardly open a paper or read an academic journal without some attempt to explain an aspect of human behaviour or experience by reference to neuroscience biological or evolutionary processes This biologising has had rather a free ride until now being generally accepted by the public at large However there is a growing number of scholars who are challenging the assumption that we are little more than our bodies and animal origins This volume brings together a review of these emerging critiques expressed by an international range of senior academics from across the social sciences Their arguments are firmly based in the empirical scientific tradition They show the lack of logic or evidence for many biologising claims as well as the damaging effects these biological assumptions can have on issues such as dealing with dyslexia or treating alcoholism This important book originally published as a special issue of *Contemporary Social Science* contributes to a crucial debate on what it means to be human This collection of articles by David Canter and his colleagues rigorously argued and richly informative are of immense importance It is astonishing that as Canter puts it in his brilliant overview of biologising trends there are those in the humanities who need to be reminded that human beings can talk and interact with each other generating cultures and societies that have an existence that cannot be reduced to their mere mechanical parts Professor Raymond Tallis FRCP FMedSci DLitt LittD in the Preface **Subject Guide to Books in Print**, 2001 *Integrated Approaches to Drug and Alcohol Problems* Willm Mistral, 2016-04-14 *Integrated Approaches to Drug and Alcohol Problems* Action on Addiction provides a pathway through the field of addiction giving a clear description of points along that path from the beginning of problematic use of drugs and alcohol to treatment support recovery and reintegration in society The book illustrates the principle of integrated approaches to tackling the rise in problems with addiction Practical applications of these approaches are demonstrated in the work of UK charity Action on Addiction one organisation which has been influenced by and contributed to the research and practice of the authors The interventions illustrated within

Integrated Approaches to Drug and Alcohol Problems demonstrate how the findings of international research can be brought together to provide effective services for individuals families and communities suffering from addiction related problems Some of the foremost internationally recognized addiction researchers clinicians and trainers from the UK USA and Canada have contributed chapters to this book It will be of interest to all those working in the field of drug and alcohol addiction including counsellors and therapists as well as GPs nurses and public health officers Integrated Approaches to Drug and Alcohol Problems will also have general appeal to anyone studying Psychology and Mental Health courses at undergraduate or postgraduate level plus those affected by addiction **BMJ** ,2004 **Forthcoming Books** Rose Arny,2003 **Islamic Psychology** G. **On Addiction** Darin Weinberg,2024-08-23 Mainstream addiction science sees addiction either as a biomedical disease that renders one incapable of self control or as a voluntary practice engaged in freely In On Addiction Darin Weinberg shows how this dynamic is deeply influenced by a series of binaries free will determinism mind body objectivity subjectivity that hinder our understanding of addiction Here he offers a new theorization of addiction in which he breaks down these contradictions and incompatibilities calling into question the taken for granted distinction between the biological and the social To the extent that it is understood as a loss of self control over one s behavior addiction Weinberg contends requires a supple theoretical framework that provides for movements into and out of self control for the social and natural processes

that influence these movements for the historical contexts within which they occur and for the ethical ramifications of taking them seriously To create this framework Weinberg brings together history ethnography and critical theory as well as the clinical and social sciences In this way Weinberg takes a more holistic approach to examining the fundamental nature and ethics of addiction      **Alcoholism and Drug Dependence** Brenda R.
