As more scholars and students seek to make their research available online using the power of the web to find newer and richer ways of presenting large data sets they are increasingly reaching the limits of what old platforms can accomplish. Author Quinn Dombrowski has taught numerous courses in Drupal programming for scholars in the humanities; the techniques here have been field tested. The majority of this book is centered around the creation of an example website based on a fully functional website that is driven by Drupal. *Drupal for Humanists* is the first book on Drupal to be crafted specifically for non technical users. This manual does not assume any prior experience with PHP, FTP, databases, CMS or even HTML. If these acronyms are unfamiliar, *Drupal for Humanists* is the place to start.
