Disability As A Social Construct Disability As A Social Construct:

Disability as a Social Construct Claire H. Liachowitz, 1988 Wounded soldiers injured workers handicapped adults and physically impaired children have all been affected by legislation that reduces their opportunities to live a functional life In **Disability as a Social Construct** Claire Liachowitz contends that disability is not merely a result of a handicap but can be imposed by society through devaluation and segregation of people who deviate from physical norms She analyzes pertinent American legislation primarily from 1770 to 1920 to provide a new perspective on the mechanisms that translate physical defects into social and civil inferiority **The Social Construction of Intellectual Disability** Mark Rapley, 2004-06-10

Intellectual disability is usually thought of as a form of internal individual affliction little different from diabetes paralysis or chronic illness This study the first book length application of discursive psychology to intellectual disability shows that what we usually understand as being an individual problem is actually an interactional or social product Through a range of case studies which draw upon ethnomethodological and conversation analytic scholarship the book shows how persons categorized as intellectually disabled are produced as such in and through their moment by moment interaction with care staff and other professionals **Disability and the Sociological Imagination** Allison C. Carey, 2022-05-16

Disability and the Sociological Imagination provides an expertly developed and accessible overview of the relatively new and growing area of sociology of disability Written by one of the field's leading researchers it discusses the major theorists research methods and bodies of knowledge that represents sociology's key contributions to our understanding of disability Unlike other available texts it examines the ways in which major social structures contribute to the production and reproduction of disability and examines how race class gender and sexual orientation shape the disability experience **The Rejected Body**

Susan Wendell, 1996 First Published in 1996 Routledge is an imprint of Taylor Francis an informa company **Digital Disability** Gerard Goggin, Christopher Newell, 2003 Media representation of and for the disabled has been recharged in recent years with the expansion of new media worldwide Interactive digital communications such as the Internet new varieties of voice and text telephones and digital broadcasting have created a need for a more innovative understanding of new media and disability issues This engaging analysis offers a global perspective on how people with disabilities are represented as users consumers viewers or listeners of new media by policymakers corporations programmers and the disabled themselves **The Faces of Intellectual Disability** Licia Carlson, 2010

The Faces of Intellectual Disability challenges current thinking about cognitive impairment in order to come to terms with what it means to treat people with intellectual disabilities in an ethical manner As she embraces the task of reassessing philosophical views of intellectual disability Licia Carlson shows how we can affirm the dignity and worth of intellectually disabled people by dropping comparisons to nonhuman animals and confronting fears and discomforts about mental impairment Carlson presents a complex history of ideas and notions about cognitive impairment the treatment of intellectually disabled people and social

and cultural reactions to them Sensitive and clearly argued this book offers significant new thinking on recent trends in disability studies and philosophy **Music, Disability, and Society** Alex Lubet,2011 In *Music Disability and Society* Alex Lubet identifies the utility of bringing a disability studies perspective to the field of music studies His book helps to demonstrate not only the significance of disabled people s presence in the history of music but even more importantly the difference that disability makes in the production of the art form itself The work will help to spur new work in this interdisciplinary arena for years to come David Mitchell Temple University Book Jacket *The Disability Studies Reader* Lennard J. Davis,2006 The second edition of *The Disability Studies Reader* builds and improves upon the classic first edition which has sold well over 6000 copies since 1999 As a field disability studies burst onto the scene across the social sciences and humanities in the 1990s and the first edition of the reader gathered the best work that had been written on the subject including essays by famous authors such as Susan Sontag and Erving Goffman The new edition is more global in its coverage and adds material on genetic testing the human genome queer studies and issues in developing countries The size of the audience has grown since the first edition s publication and the second edition s new material will make it even more useful for courses on the subject Courses on the subject have mushroomed in the past ten years and can now be found across the social sciences humanities and behavioral sciences *Disability & the Politics of Education* Susan Lynn Gabel,Scot Danforth,2008 *Disability and the Politics of Education An International Reader* is a rich resource that deals comprehensively with the many aspects of the complex topic of disability studies in education For nearly two decades global attention has been given to education as a human right through global initiatives such as Education for All EFA and the Salamanca Statement Yet according to UNESCO reaching the goals of EFA remains one of the most daunting challenges facing the global community Today millions of the world s disabled children cannot obtain a basic childhood education particularly in countries with limited resources Even in the wealthiest countries many disabled children and youth are educationally segregated from the nondisabled particularly if they are labeled with significant cognitive impairment International agencies such as the United Nations and the World Bank have generated funds for educational development but unfortunately these funds are administered with the assumption that west is best thereby urging developing countries to mimic educational policies in the United States and the United Kingdom in order to prove their aid worthiness This McDonaldization of education reproduces the labeling resource allocation and social dynamics long criticized in disability studies The authors in this volume explore these subjects and other complexities of disability and the politics of education In doing so they demonstrate the importance and usefulness of international perspectives and comparative approaches *Ending Disability Discrimination* Gary E. May,Martha B. Raske,2005 *Ending Disability Discrimination* defines disability as a social construction not as an immutable physical limitation and gives social work students and practitioners a model that can be used to transform how people with disabilities are treated Highlights Uses an innovative model for understanding disability that

draws upon a concept familiar to social work students discrimination Chapter 5 Presents disability related impairment as a consequence of discrimination making the target system the social environment rather than the person with the disability a viewpoint that shows commitment to social justice and draws upon the systems perspective used for understanding other minority groups Provides a single source through which to explore the shifting history of scholarly thinking about disability issues by including chapters from respected disability scholars that chronicle and analyze the evolution of the conceptualization of disability Chapters 1 2 and 4 Don't Miss These Other Special Value Pack Options Research Navigator TM Research Navigator TM can be a student's best friend when they're facing a large research project Especially helpful with the toughest challenge getting started Research Navigator TM offers a comprehensive step by step walk through of the research process along with access to some of the most respected source databases available Access to Research Navigator TM a 15 value is FREE when packaged with a new Allyn Bacon Social Work textbook If this text did not come packaged with Research Navigator TM look for it in your bookstore or visit <http://www.researchnavigator.com> today to purchase immediate access The Career Center Do your students need help transitioning from being a student to becoming a professional With The Career Center they can register to receive eight 30 minute career counseling sessions a total of four hours of career consultant time The Career Center is designed to address the wide range of preparation and life stages of individuals who are attempting to develop their careers Qualified career specialists advise students as they establish or reestablish themselves in today's competitive global economy The Career Center a 25 value is FREE to your students when you order it packaged with any new Allyn Bacon Social Work textbook Visit www.ablongman.com/careercenter for more information Contact your local Allyn Bacon representative and request special packaging codes to take advantage of these great offers

Dis/ability in Media, Law and History Micky Lee, Frank Rudy Cooper, Patricia Reeve, 2022-06-17 This book explores how being disabled originates in the physical world social representations and rules and historical power relations the interplay of which render bodies normal or not Do parking signs that represent people in wheelchairs as self-propelling influence how we view disability How do wheelchair users understand their own bodies and an environment not built for them By asking questions like these the authors reveal how normalization has informed people's experiences of their bodies and their fight for substantive equality Understanding these processes requires acknowledging the tension between social construction and embodiment as well as centering the intersection of disabilities with other identities such as race class gender sex orientation citizen status and so on Scholars and researchers will find that this book provides new avenues for thinking about disability A wider audience will find it accessible and informative *Marginal Groups and Mainstream American Culture* Yolanda Estes, 2000 They are often portrayed as outsiders ethnic minorities the poor the disabled and so many others all living on the margins of mainstream society Countless previous studies have focused on their pain and powerlessness but that has done little more than sustain our preconceptions of marginalized groups Most accounts of marginalization approach

the subject from a distance and tend to overemphasize the victimization of outsiders Taking a more intimate approach this book reveals the personal moral and social implications of marginalization by drawing upon the actual experiences of such individuals Multidisciplinary and multicultural Identity on the Margin addresses marginalization at a variety of social levels and within many different social phenomena going beyond familiar cases dealing with race ethnicity and gender to examine such outsiders as renegade children conservative Christians and the physically and mentally disabled And because women are especially subject to the effects of marginalization feminist concerns and the marginalization of sexual practices provide a common denominator for many of the essays From problems posed by complimentary racism to the status of gays in Tony Blair s England from the struggle of Native Americans to preserve their identities to the singular problems of single mothers Identity on the Margin takes in a broad spectrum of cases to provide theoretical analysis and ethical criticism of the mechanisms of identity formation at the edges of society In all of the cases the authors demonstrate the need for theory that initiates social change by considering the ethical implications of marginalization and criticizing its harmful effects Bringing together accounts of marginalization from many different disciplines and perspectives this collection addresses a broad audience in the humanities and social sciences It offers a basis for enhancing our understanding of this process and for working toward meaningful social change *Disability Studies Quarterly*, 1994

Disabling Barriers - Enabling Environments John Swain, 1993-03-02 An explicit and detailed breakdown from the perspective of participants of why disabled people are engaged in a revolution a revolution to break down barriers of attitude and the environment I am sure it will have a place of honour in the increasing list of disability literature Journal of Social Policy The major theme of this accessible and engaging text is that disability is caused by the way society is organized The contributors demonstrate the many ways in which disabled people have taken the initiative in reshaping both the meaning of disability and the services and support available to them The notion that disability is either a medical condition or a personal tragedy is strongly challenged and the marginalized position of black disabled people and disabled women is also addressed Focusing on the barriers which disabled people encounter in education housing leisure and employment this book critically reviews professional practice and describes alternative models of support which give disabled people control over their own lives Disabling Barriers Enabling Environments is the Course Reader on the Open University course The Disabling Society K665

Social Theory and Practice, 2004 *Journal of Dramatic Theory and*

Criticism, 2000 *Dimensions of Learning Disability* Bob Gates, Colin Beacock, 1997 Treats role of nurses in the care of people with learning disabilities *Learning Disability* James Carrier, 1986-07-16 This book was written for sociologists concerned with education but should be read by anyone interested in learning disability as a concept either from a practical or theoretical standpoint It is especially recommended for special educators and other professionals concerned with children who experience difficulties in school learning as well as for the parents of such children Carrier has written an intelligent well documented and important book that should provoke a great deal of controversy for some time to come Contemporary Sociology James G Carrier presents a detailed historical description of the social and educational assumptions integral to the idea of learning disability Drawing upon the works of leading authorities in the field Carrier addresses a number of questions from an essentially Marxist perspective His discussion revolves around the way in which social order structures reality how that structured reality affects daily social practices and how this in turn perpetuates the social structure which conditioned the practices in the first place Dividing his discussion into three parts Carrier first examines the contrast between structure and process in the theory of learning disability espoused by Burke and Boudrieu moves on to consider the structural approach to the content and meaning of the theory and finally provides a processualist consideration of why different groups came to support it Finally the author presents some of his conclusions about the conflict he has described
