## **Disability Rhetoric Critical Perspectives On Disability:**

**Disability Rhetoric** Jay Timothy Dolmage, 2014-01-22 Disability Rhetoric is the first book to view rhetorical theory and history through the lens of disability studies. Traditionally the body has been seen as at best a rhetorical distraction at worst those whose bodies do not conform to a narrow range of norms are disqualified from speaking. Yet Dolmage argues that communication has always been obsessed with the meaning of the body and that bodily difference is always highly rhetorical. Following from this rewriting of rhetorical history he outlines the development of a new theory affirming the ideas that all communication is embodied that the body plays a central role in all expression and that greater attention to a range of bodies is therefore essential to a better understanding of rhetorical histories, theories and possibilities. *Embodied Rhetorics*

James C. Wilson, Cynthia Lewiecki-Wilson, 2001 Presenting thirteen essays editors James C. Wilson and Cynthia Lewiecki-Wilson unite the fields of disability studies and rhetoric to examine connections between disability, education, language and cultural practices. Bringing together theoretical and analytical perspectives from rhetorical studies and disability studies, these essays extend both the field of rhetoric and the newer field of disability studies. The contributors span a range of academic fields including English, education, history and sociology. Several contributors are themselves disabled or have disabled family members. While some essays included in this volume analyze the ways that representations of disability construct identity and attitudes toward the disabled, other essays use disability as a critical modality to rethink economic theory, educational practices and everyday interactions. Among the disabilities discussed within these contexts are various physical disabilities, mental illness, learning disabilities, deafness, blindness and diseases such as multiple sclerosis and AIDS.

Critical Perspectives on Human Rights and Disability Law Marcia H. Rioux, Lee Ann Bassier Marks, Lee Ann Bassier, Melinda Jones, 2011-05-23 This book examines the changing relationship between disability and the law, addressing the intersection of human rights principles, human rights law, domestic law and the experience of people with disabilities. Drawn from the global experience of scholars and activists in a number of jurisdictions and legal systems, the core human rights principles of dignity, equality and inclusion and participation are analyzed within a framework of critical disability legal scholarship. **The Routledge Companion to Art and Disability** Keri Watson, Timothy W. Hiles, 2022-03-30 The

Routledge Companion to Art and Disability explores disability in visual culture to uncover the ways in which bodily and cognitive differences are articulated physically and theoretically and to demonstrate the ways in which disability is culturally constructed. This companion is organized thematically and includes artists from across historical periods and cultures in order to demonstrate the ways in which disability is historically and culturally contingent. The book engages with questions such as: How are people with disabilities represented in art? How are notions of disability articulated in relation to ideas of normality, hybridity and anomaly? How do artists use visual culture to affirm or subvert notions of the normative body? Contributors consider the changing role of disability in visual culture, the place of representations in society and the ways in

which disability studies engages with and critiques intersectional notions of gender race ethnicity class and sexuality This book will be particularly useful for scholars in art history disability studies visual culture and museum studies **Disability Representation in Film, TV, and Print Media** Michael S. Jeffress, 2021-08-19 Using sources from a wide variety of print and digital media this book discusses the need for ample and healthy portrayals of disability and neurodiversity in the media as the primary way that most people learn about conditions It contains 13 newly written chapters drawing on representations of disability in popular culture from film television and print media in both the Global North and the Global South including the United States Canada India and Kenya Although disability is often framed using a limited range of stereotypical tropes such as victims supercrips or suffering patients this book shows how disability and neurodiversity are making their way into more mainstream media productions and publications with movies television shows and books featuring prominent and even lead characters with disabilities or neurodiversity Disability Representation in Film TV and Print Media will be of interest to all scholars and students of disability studies cultural studies film studies gender studies and sociology more broadly

**Dangerous Discourses of Disability, Subjectivity and Sexuality** Margrit Shildrick, 2009-08-28 This book examines disability in the context of two areas subjectivity and sexuality in which it has been hitherto suppressed Using feminist and postmodernist analysis Margrit Shildrick explores what motivates the discrimination devaluation and alienation directed at disabled people and argues that the difference that disability encapsulates uncovers a psycho cultural imaginary that sustains modernist understandings of what constitutes an embodied subject Where autonomy is the most valued attribute of subjectivity any compromise of bodily control indication of connectivity or of corporeal instability mobilizes a deep seated anxiety in the normative majority that is most acute in relation to disability and sexuality By critiquing conventional paradigms this study shows how it becomes possible to celebrate the fluidity unpredictability and connectivity already associated with disability and creatively queer understanding of the embodied self Using an analysis that draws on critical cultural theory emergent strands in critical disability studies postconventional philosophy and feminist theories of the body from Merleau Ponty to Haraway and Deleuze and social policy and legal discourse Shildrick argues for the need to contextualise disability as a matter of ethical import

*The Rhetoric of Learning Disabilities* Danielle DeNure Greenwood, 1995 *Journal of Disability Policy Studies*, 2012 *The Rhetoric of Disability* Anna L. Barritt, 2018 The institution of disability as it is perceived in the United States and most of Western civilization signifies a site of oppression that has been historically neglected if not actively rejected by the hegemonic population of

nondisabled people While disability studies has congregated as a concerted effort of academic inquiry scholars have largely approached disability from cultural and sociological perspectives and have focused on physical rather than cognitive disabilities The field of rhetoric as the study of discourse and its relation to the production and reception of meaning offers vital perspectives for better understanding the institution of disability and may serve as a framework for first illuminating and then disempowering the discursive structures that have heretofore suggested that people with disabilities are deviant and inferior This exposition aims to trace how and in what contexts the concept of disability has been formed as a rhetorical object via Foucauldian discourse analysis The findings of this research elucidate how the disabled person has come to be known as a subject of the domain of disability through discursive knowledge power relations Though a rhetorical analysis may not alleviate the physical intellectual or emotional obstacles that may occur from the phenomena of disability this project represents one step toward reshaping the oppressive paradigm of cultural thought regarding disability and the unjust hierarchization of human ability and worth
