Discourse And Knowledge A Sociocognitive Approach Teun A Van Dijk:

Discourse and Knowledge Teun A. van Dijk, 2014-07-17 Both discourse and knowledge are fundamental concepts but they are often treated separately The first book to adopt a multidisciplinary approach to studying the relationship between these concepts Discourse and Knowledge introduces the new field of epistemic discourse analysis and uses a wide range of examples to illustrate the theory Discourse and Context Teun A. van Dijk, 2010-02-11 How do social situations influence language use discourse and conversation This book is a monograph which presents a multidisciplinary theory of context and the way context influences language use and discourse Unlike in earlier approaches contexts are not defined as objective social variables such as gender or age Rather they are constructs of the participants themselves that is subjective definitions of the communicative situation that are made explicit in the sociocognitive notion of context models These models dynamically control all language use make sure that discourses are appropriate in the communicative situation and hence are the basis of pragmatics In this book context models are studied especially from a socio linguistic and cognitive perspective In another book published by Cambridge University Press *Society and Discourse* Teun A van Dijk develops the social psychological sociological and anthropological dimensions of the theory of context *Collaborative Practical Theology* Henk de Roest, 2019-10-07 In Collaborative Practical Theology Henk de Roest documents and analyses research on Christian practices as it can be conducted by academic practical theologians in collaboration with practitioners of different kinds in Christian practices all around the world Latin Americans in London F. Daniel Morales Hernández, 2023-10-24 This book explores the life stories of Latin American immigrants living in London Through a critical analysis of their discourses in various contexts this book provides insights into representations of migration and processes of exclusion among co ethnics Ideologies of language neoliberalism and social class intersect with such constructs as gender race and ethnicity as the participants categorise other Latin Americans and themselves in the social spaces that they have cohabitated It is a timely work for those interested in the history of Latin America its people in diaspora social inequality and the interrelationship between language and identity in a context of mobility **The SAGE Encyclopedia of Communication Research Methods** Mike Allen, 2017-04-11 Communication research is evolving and changing in a world of online journals open access and new ways of obtaining data and conducting experiments via the Internet Although there are generic encyclopedias describing basic social science research methodologies in general until now there has been no comprehensive A to Z reference work exploring methods specific to communication and media studies Our entries authored by key figures in the field focus on special considerations when applied specifically to communication research accompanied by engaging examples from the literature of communication journalism and media studies Entries cover every step of the research process from the creative development of research topics and questions to literature reviews selection of best methods whether quantitative qualitative or mixed for analyzing research results and publishing research findings whether in traditional media

Meaning and Knowledge Representation 11th International Conference María Enriqueta Cortés de los Ríos, María del Mar Sánchez Pérez, 2024-10-18 Natural language understanding systems require a knowledge base provided with formal representations reflecting the structure of human beings cognitive system Although surface semantics can be sufficient in some other systems the construction of a robust knowledge base guarantees its use in most natural language processing applications thus consolidating the concept of resource reuse This conference deals with meaning and knowledge representation in the context of natural language understanding from the perspective of theoretical linguistics computational linguistics cognitive science knowledge engineering artificial intelligence natural language processing text analytics or linked data and semantic web technologies

Greece in Crisis Ourania Hatzidaki, Dionysis Goutsos, 2017-07-26 Since its onset the Greek crisis has given rise to an abundance of relevant text and talk This volume offers an insider's view of the discursive manifestations of the crisis focusing on discourses in the Greek language and by Greek social actors The contributions investigate the diverse ways in which the crisis has been communicated to the public by domestic policymakers or debated by elite non elite and

resistant participants Crisis discourses are also examined in the light of the rise of neo nationalism and the extreme Right in both Greece and Cyprus All contributions seek to meaningfully combine critical discourse and corpus linguistics perspectives for a better understanding of the Greek crisis as a socio economic episode and as a discourse construct Discourse driven quantification and corpus driven quantification complement each other in the critical examination of textual data as diverse as official government communications party leader speeches newspaper articles public assembly resolutions song lyrics social media commentary and terrorist proclamations

Sociocultural and Multicultural Meanings in Online Communication Taiwo, Rotimi, 2025-06-16 In today's digital era communication is no longer bound by geographical or cultural borders as sociocultural meanings are constantly reshaped and shared across global networks The rise of digital media has introduced new modes of expression that enrich and complicate how meaning is constructed and interpreted This shift toward multimodal and multicultural literacies reflects broader societal transformations where individuals engage with diverse perspectives and identities in online spaces Understanding these dynamics is essential for education cross cultural dialogue and effective communication in increasingly interconnected societies Sociocultural and Multicultural Meanings in Online Communication presents issues on sociocultural and multimodal meanings in online discourse from multi and interdisciplinary perspectives It offers diverse disciplinary views on the projection of sociocultural and multimodal meaning online Covering topics such as online interactions linguistic diversity and online content creation this book is an excellent resource for communication specialists media specialists linguists sociologists psychologists professionals researchers scholars academicians and more

Legitimizing Corporate Harm Jennifer L. Schally, 2017-11-30 This book utilizes critical discourse analysis to illuminate the ways in which one of the largest agribusinesses in operation Tyson Foods disguises their actions whilst simultaneously presenting the image of a benign good corporate citizen Schally unveils how the discourses employed by Tyson gain legitimacy by drawing on and aligning with larger cultural discourses that are often taken for granted and not adequately scrutinised This original research situated at the intersection of green and cultural criminologies contributes to these current perspectives as well as to the burgeoning social harm approach within criminology A bold and engaging study this book will be indispensable for students and scholars of green criminology corporate crime animals and society and environmental sociology as well as environmental and animal rights activists

Discourses of Helping Professions Eva-Maria Graf, Marlene Sator, Thomas Spranz-Fogasy, 2014-12-15 Discourses of Helping Professions brings together cutting edge research on professional discourses from both traditional helping contexts such as doctor patient interaction or psychotherapy and more recent helping contexts such as executive coaching Unlike workplace professional and institutional discourse by now well established fields in linguistic research discourses of helping professions represent an innovative concept in its orientation to a common communicative goal solving patients and clients physical psychological emotional professional or managerial problems via a particular helping discourse The book sets out to uncover

differences similarities and interferences in how professionals and those seeking help interactively tackle this communicative goal In its focus on professional helping contexts and its inter professional perspective the current book is a primer intended to spark off more interdisciplinary and applied research on helping discourses a socio cultural phenomenon that is of growing importance in our post modern society As such it is of great relevance for discourse researchers and discourse practitioners caretakers and social scientists of all shades as well as for everybody interested in helping professions *Discourse and Power* Teun A van Dijk, 2008-06 Teun van Dijk is one of the founders of critical discourse studies This volume brings together some of his key writings framed by new introductory material *Perspectives on 9/11* Waḥīd Sāmī, 2004 *Discourse and Power* Teun A van Dijk, 2017-09-16 Teun van Dijk is one of the founders of Critical Discourse Studies and this collection brings together some of his most important writing framed by new introductory material He examines the role of discourse in the reproduction of power and domination in society and the ways in which media and political elites control access to public discourse Southern African Linguistics and Applied Language Studies, 2002 **Discourse, Racism, and Ideology** Teun Adrianus van Dijk, 1996 Discourse Studies Teun A Van Dijk, 2011-03-11 A landmark in the oeuvre of one of the founding fathers of discourse analysis Van Dijk has managed to edit a volume of lasting significance and some of the chapters in this book belong to the most widely read in the field In its totality Discourse Studies offers us a 360 degree tour of the field Nothing in this volume is dated everything remains mandatory reading for every student and advanced practitioner Jan Blommaert Tilburg University This very welcome updated second edition will allow Teun van Dijk s very popular Discourse Studies to consolidate its already strong and central position in the area Featuring chapters written by so many of the leading scholars it will continue to be a stimulating and wide ranging introduction to the discipline of discourse studies for new generations of students Malcolm Coulthard University of Birmingham This book is the largest most complete most diverse and only multidisciplinary introduction to the field A combined Second Edition of two seminal texts in the field the 1997 titles *Discourse as Social Interaction* and *Discourse as Structure and Process* this essential handbook Is fully updated from start to finish to cover contemporary debates and research literature Covers everything from grammar narrative argumentation cognition and pragmatics to social political and critical approaches Adds two new chapters on ideology and identity Puts the student at the centre offering brand new features such as worked examples sample analyses and recommended further reading Written and edited by world class scholars in their fields it is the essential one stop companion for any student of discourse analysis and discourse studies *Handbook of Pragmatics* Jef Verschueren, Jan-Ola Östman, Jan Blommaert, 1995 *Discourse and Ideologies* Christina Schäffner, Helen Kelly-Holmes, 1996 This book discusses the relationship between ideology and language especially such questions as What are ideologies How can they be described and How can they be related to the processes involved in the production or interpretation of discourse In the main contribution Teun van Dijk develops new theoretical notions and analytical distinctions to link explicitly structures of society cognition and

discourse Ideologies are defined as socially shared belief systems of groups with social and cognitive functions Their main social function is to sustain the interests of a group they monitor group related social practices Cognitively ideologies are assumed to assign an overall orientation coherence and organisation to a cluster of attitudes Ideologies and their structures have to be inferred from more directly observable structures of cognition interaction and society Therefore the notion of opinion and its complex relations to the structures of discourse and ideology are examined Opinions are typically expressed acquired and changed by discourse in interactional contexts This implies that specific grammatical or other verbal means are typically associated with the expression of opinions An analysis of a sample text illustrates how argumentation structures reflect preexisting underlying structures of social cognition In this way discourse analysts can contribute to the development of a critical language awareness Contributors to the debates include Michael Billig Paul Chilton David Graddol Ulrike Meinhof and Kay Richardson *The Discursive Construction of History* Hannes Heer, 2008-02-12 How do democratic and pluralistic societies cope with traumatic events in their past What strategies and taboos are employed to reconstruct wars revolutions torturing mass killings and genocide in a way to make their contradiction to basic human rights and values invisible This interdisciplinary volume analyzes in detail for the first time in multiple genres the history and image of the German Wehrmacht and the debates in Austria and Germany surrounding two highly contested exhibitions about the war crimes of the German Wehrmacht during WWII
