Meditation as Spiritual Therapy Matthew McWhorter, Matthew R. McWhorter, 2024 Christian persons today might seek spiritual development and ponder the benefit of mindfulness exercises but also maintain concerns if they perceive such exercises to originate from other religious traditions Such persons may not be aware of a long tradition of meditation practice in Christianity that promotes personal growth This spiritual tradition receives a careful formulation by Christian monastic authors in the twelfth century One such teaching on meditation is found in the treatise *De consideratione* written by St Bernard of Clairvaux d 1153 to Pope Eugene III d 1153 In textual passages where St Bernard exhibits a clear concern for the mental health of the Pope due to numerous ongoing ecclesial political and military problems St Bernard reminds Eugene III of his original monastic vocation and the meditation exercises associated with that vocation The advice that St Bernard gives to Eugene III can be received today in a way that provides a structure for Christian meditation practice which is relevant for personal development spiritual direction and civil psychotherapy that integrates a client's spirituality into the course of treatment St Bernard thus might be interpreted as a teacher of a kind of Christian mindfulness that can benefit both a person's mental health as well as a person's relationship with God Meditation as Spiritual Therapy examines the historical context of Bernard's work his purpose for writing it as well as the numerous Christian sources he drew upon to formulate his teaching Bernard's teaching on the course of meditation itself is explored in depth and in dialogue with his other treatises letters and sermons Lastly a contemporary summary of Bernard's teaching is provided with reflections concerning the relationship of this teaching to contemporary spiritual direction and spiritually integrated civil psychotherapy

Counseling and Psychotherapy with Pentecostal and Charismatic Christians Geoffrey W. Sutton, 2020-09-17 The purpose of this book is to help mental health professionals increase their cultural competence to better serve Pentecostal and

Charismatic Christians who are congregants in the world's fastest growing religious movement. My focus is twofold. First, I aim to increase the reader's awareness and knowledge about Christians who live their faith within Pentecostal cultures. Second, I hope to increase the reader's knowledge about the assessment and treatment of Pentecostal and Charismatic Christians with mental health needs based on a review of research and recommendations from experienced clinicians. My approach to assessment and treatment is the commonly held view that best practices are holistic. Therefore, I will attempt to integrate Pentecostal and Charismatic spirituality with assessment and treatment in ways that respect the spirituality of the person seeking treatment and enhances therapeutic outcomes. The first part of the book can help all readers understand people who live into that religion. The second part of the book is a practical and insightful guide to effective helping for psychological difficulties. I highly recommend this book to anyone who seeks to understand and help Pentecostals and Charismatics. Everett L. Worthington Jr., Commonwealth Professor Emeritus, a well-written comprehensive and very helpful guide to understanding and counseling Pentecostal and Charismatic Christians. It is a substantial and unique contribution to Christian counseling and also to the field of counseling and psychotherapy. I highly recommend it as essential reading for everyone interested or involved in counseling Pentecostal and Charismatic Christians. Rev. Siang Yang Tan, PhD, Senior Professor of Psychology, Fuller Theological Seminary and author of *Counseling and Psychotherapy: A Christian Perspective* and *Shepherding God's People*, a must read not only for Pentecostal and Charismatic counselors but for anyone in the mental health field. Tony Richie, D. Min, Ph.D., Associate Professor of Theology, Pentecostal Theological Seminary, Cleveland, TN.

Prayer in Counseling Jeff C. VanZant, 2010-11-30. *Prayer in Counseling: The Practitioners Handbook* is a bold apologetic for seeing greater use of prayer with the practice of counseling and psychotherapy in faith-based community, pastoral, and mainstream counseling settings. Using the evidence-based results of the best research studies and client surveys on the efficacy of prayer, the choice to integrate prayer with therapy is philosophically and empirically analyzed from every vantage. Practical examples, key filtering questions, and tried and true guidelines help the reader find a balance between the two extremes of avoidance/neglect of prayer as well as excessive/unwise usage. Gathering the best wisdom from the existing literature, the author builds a strong case to view prayer and counseling as unique but complementary avenues for dynamic change in a person's life. In light of potential counseling dilemmas and the need for healthy accountability, *Prayer in Counseling* provides a roadmap to navigate the challenging ethical considerations of when and how to integrate prayer into therapy. Scriptural hindrances to effective prayer are identified and then contrasted against biblical principles and practical direction to make prayer a powerful healing and successful spiritual intervention in the counseling arena. [Counseling and Psychotherapy with Pentecostal and Charismatic Christians](#) Geoffrey W. Sutton, 2020-09-16, a well-written comprehensive and very helpful guide to understanding and counseling Pentecostal and Charismatic Christians. It is a substantial and unique contribution to Christian counseling and also to the field of counseling and psychotherapy. Back cover *Transformative*

Challenges of Integrating Religion and Spirituality into Psychotherapy Francis A. Martin, 2024-04-23 This book examines personal and professional understandings of religion in psychotherapy and advocates for integrity competency and cultural pluralism in clinical practice A major feature of this book is that it confirms the massive proliferation of religion oriented approaches to counseling and therapy in recent years It attributes this rise to opportunism and exaggerated individualism among therapists and to the frequent failures of professional associations clinical preparation programs and other influences In response to these influences it identifies the need for guiding principles for integrating religion into therapy discusses the religious issues that clients bring to therapy and advocates for major changes in clinical practice with emphasis on integrity and competence Building on a large volume of research and using evidence based conclusions it clarifies how these two major features of contemporary life can be integrated with integrity and competence The author maintains that religion should be a feature of the practice of counseling and therapy so long as it addresses the clinically relevant needs of clients However it also explores how the religion of counselors and therapists often expresses the needs of counselors and therapists instead of addressing the needs of their clients In the context of these questions and discussion of

contentious challenges this book provides guidelines for relating religion with clinical practice and recommends needed actions by clinical preparation programs professional associations individual therapists state legislatures licensing boards social service agencies and corporations All of this stands on the conspicuous need for professional accountability in the delivery of mental health care

Cognitive Behavioral Therapy for Christians with Depression Michelle Pearce, 2016-07-25

Does religion belong in psychotherapy For anyone in the helping profession whether as mental health professional or religious leader this question is bound to arise Many mental health professionals feel uncomfortable discussing religion In contrast many religious leaders feel uncomfortable referring their congregants to professionals who do not know their faith or intent to engage with it And yet Michelle Pearce PhD assistant professor and clinical psychologist at the Center for Integrative Medicine at the University of Maryland argues that if religion is essential to a client religion will be a part of psychotherapy whether it is discussed or not Clients cannot check their values at the door more than the professionals who treat them To Pearce the question isn't really does religion belong but rather how can mental health professionals help their religious clients engage with and use their faith as a healing resource in psychotherapy

Cognitive Behavioral Therapy for Christian Clients with Depression is the answer to that question as the book's purpose is to educate mental health professionals and pastoral counselors about religion's role in therapy as well as equip them to discuss religious issues and use evidence based religiously integrated tools with Christian clients experiencing depression In this book readers will find the following resources in an easy to use format

Martin, 2020 Why are we practicing counselors and psychotherapists committed to failure This is the question that has haunted Dr Francis Martin as he has cataloged well over 20 000 distinct psychotherapy approaches advertised on the websites of licensed mental health

professionals No doubt some of these are harmful most of them ineffective and many simply made up but the sheer volume of such techniques and practices advertised by licensed professionals holding advanced degrees whose services are billed to clients and insurance companies calls the credibility of the entire mental health profession into question Based on significant original research that joins research from others this book describes a near universal crisis in mental health care and recommends ways to rescue the field from itself The crisis is caused by declining competence among counselors and psychotherapists who have failed to regulate themselves and who therefore deliver inadequate if not harmful services The book calls for major specific and urgently needed reforms
