**Evolution and Religion in American Education** David E. Long, 2011-08-03 Evolution and Religion in American Education shines a light into one of America's dark educational corners exposing the regressive pedagogy that can invade science classrooms when school boards and state overseers take their eyes off the ball It sets out to examine the development of college students' attitudes towards biological evolution through their lives The fascinating insights provided by interviewing students about their world views adds up to a compelling case for additional scrutiny of the way young people's educational experiences unfold as they consider and indeed in some cases reject one of science's strongest and most cogent theoretical constructs Inevitably open discussion and consideration of the theory of evolution can chip away at the mental framework constructed by Creationists eroding the foundations of their faith The conceptual battleground is so fraught with logical challenges to Creationist dogma that in a number of cases students' exposure to such dangerous ideas is actively prevented This book provides a detailed map of this astonishing struggle in today's America a struggle many had thought was done and dusted with the onset of the Enlightenment

**God's Own Country** Stephen Bates, 2011-11-24 Right wing evangelical Christianity has come to dominate American political and social life in recent years dividing the country and sparking cultural and moral battles High politics and low tactics frame a fierce debate which goes much further back in the country's history than the accession of George W Bush in 2001 It's a battle that sears America's soul and affects the world In this book Stephen Bates explains why what happens in the Bible Belt matters to us and how there are those who hope to export the battle to Britain American fundamentalist religion has the potential to impact on crucial and acutely dangerous areas of the world Its priorities are often arcane and sometimes weird But it is already affecting American government policy at home and abroad not least in Israel and the Middle East How is religion affecting the current presidential elections and where will America's battle for its soul take the world next

Creationism and Anti-Creationism in the United States Tom Kaden, 2018-09-20 This book deals with professional creationist and anti creationist organizations in America and describes how the conflict between science and religion is the result of the interaction between these two groups It retraces their history from the 1960s onwards and identifies crucial turning points that led to new forms of creationism and anti creationism It explains their strategies labels and arguments as effects of this history and structure Taking a field theoretical approach the book avoids problems of prior creationism research making it

possible to identify the mechanisms through which creationism generates new strategies arguments and media output The field model is used as an interpretive tool to make sense of some of the most important creationist and anti creationist publications and media statements *Indigenous Education* Huia Tomlins-Jahnke, Sandra D. Styres, Spencer Lilley, Dawn Zinga, 2019-07-11 For Indigenous students and teachers alike formal teaching and learning occurs in contested places In Indigenous Education leading scholars in contemporary Indigenous education from North America New Zealand and Hawaii disentangle aspects of colonialism from education to advance alternative philosophies of instruction From multiple disciplines contributors explore Indigenous education from theoretical and applied perspectives and invite readers to embrace new informed ways of schooling Part of a growing body of research this is an exciting powerful volume for Indigenous and non Indigenous teachers researchers policy makers and scholars and a must read for anyone who wants to understand the contested spaces of contemporary education Foreword by Linda Tuhiwai Smith Contributors Jill Bevan Brown Frank Deer Wiremu Doherty Dwayne Donald Ngarewa Hawera Margie Hohepa Robert Jahnke Patricia Maringi G Johnston Spencer Lilley Daniel Lipe Margaret J Maaka Angela Nardozi Katrina Ann R Kap anaokal okeola N koa Oliveira Wally Penetito Michelle Pidgeon Leonie Pihama Jean Paul Restoule Mari Ropata Te Hei Sandra Styres Huia Tomlins Jahnke Sam L No eau Warner K Laiana Wong Dawn Zinga **Loving Science - but Not the Empire** Jay Sonstroem, 2023-02-27 For decades the world has been telling us that God is dead and science has proven it but is that really true As the evidence has continued to accumulate the tide has turned God is back to full health and not only that but He is far more awesome and ingenious than we ever imagined Now it is the scientific establishment that is on the ropes as a century of errors and deception has been unearthed In *Loving Science But Not the Empire* experimental scientist Jay Sonstroem helps readers discern between the findings of real science and fables which have been pushed by an entity he calls The Empire Jay provides short readable chapters to reveal both the wonders of creation and the schemes and blunders of The Empire which have resulted from its hijacked version of science Topics include the hidden truth of DNA the wonders of biology the fine tuning of the universe and evolution and Darwinism debunked Is it possible to love science but not worship it You bet Does a person who believes in God have to give up Reason No Come along and piece together the puzzle of life the universe and everything in between What you believe about your origins has everything to do with what you believe about your destiny Follow the light find the Truth and together let s free science from a Godless agenda **The New Answers Book Volume 3** Ken Ham, 2010-02-01 The world around us provides irrefutable evidence of our Creator but when challenged can you defend your faith Do you have answers to your own questions or those of your family about faith evolution creation and a biblical worldview Get the important information you need in this compelling third book from the popular Answers series and learn more about Global warming Cloning and stem cells The existence of God Bacteria and viruses Questions for evolutionists Human and chimp DNA The universe young or old Kinds in Genesis What Noah s Ark looked like and much more Learn how to be more effective in
