Evolution - the Fossils Say No! Duane T. Gish, 1973 Fatal Flaws Hank Hanegraaff, 2008-01-15 As more and more so called experts challenge what the Bible says about the creation of man we must take aim with straightforward Christ centered answers Today s generation is bombarded with theories about humankind and its origins In Fatal Flaws now in paperback with a study guide included Hank Hanegraaff keeps Christians from falling prey to corrupting scientific speculation about the origins of life and reminds us that we are God s creation This common sense approach puts the concept of evolution in the grasp of everyday Christians and reminds us that ultimately the key to our purpose in this life comes from understanding whose we are and who created us The Great Creation Debate Brad Freckleton, 2012-07 Why isn t the evolution of flight shown in the fossil record Bugs birds bats and dinosaurs flew and are shown fully formed in the fossil record but there are no animals with halfway wings in the fossil record leading from ground based animals to flying animals What is desperately wrong with the Grand Canyon if evolution is true Where are the massive signs of erosion between the sedimentary layers of the Grand Canyon if they were laid down a million years at a time Why does massive erosion only show up at the top Animals with well developed eyes show up suddenly in the fossil record as do flying animals It s the norm for plants and animals to show up in the fossil record with the same separations as we see in different types of living animals and plants today The second law of thermodynamics is a law of science that says everything left to its own will wear out run down It is a fundamental law of science So how did evolution accidentally go up How could a DNA molecule fumble together The cell needs DNA DNA needs the cell which came first Beneficial mutations also weaken in other areas and don t write evolutionary advancing DNA code Spiral galaxies which have the shape of a star fish that is spinning quickly throughout our universe like our Milky Way galaxy are supposed to be over 10 billion years old If they were over a billion years old they would lose their spiral arm shape The arms of our galaxy the Milky Way only show a maximum age of 0.3 billion years People want to know why they re here now and where they re going to go They want surety of truth also Read this book and see how well evolution holds up in all the sciences Read this book and see if life can have meaning direction and hope with surety For those who claim to be open minded put on your seatbelts and keep your arms inside as you ride the roller coaster of your own value systems Teenagers Leave a Mark Troy Blain Borden, 2017-06-12 If youre searching for your destiny Teenagers Leave a Mark will guide you through the process of discovering your destiny and pursuing a dream that will enable you to fulfill your destiny Teenagers Leave a Mark contains questions designed to help you uncover lifes deeper meaning and your own unique purpose Teenagers Leave a Mark is a Christian perspective on life in which God provides a master plan that you can play a role in Youll learn how easy it is to pursue your dream and leave a mark while at the same time becoming the person you really want to be Evolution? Duane Tolbert Gish, 1978 **Leave a Mark** Troy Blain Borden, 2014-12-29 If youre searching for your destiny and arent sure what it is or how to get there Leave A Mark will guide you through the
