How to Acquire the Right Business John

Psarouthakis; Lorraine Uhlaner, 2009-02-26 Buying a company is a demanding complex process requiring a wide range of skills and abilities If you understand this process thoroughly then you are far more likely to make the right purchase decision Whether you are buying the corner ice cream parlor or a 100 million business following certain steps will enhance your chances of successfully operating a profitable venture once the deal is closed This book should help you to visualize what really goes on in the making of a business deal Basis for the Book Information for the book is drawn from several sources The book heavily reflects the first hand practical experience in deal making by the author Dr John Psarouthakis He has led the buying process for about 40 acquisitions and has been a part of a team of a dozen others during his business career as an entrepreneur and business executive Most of his direct experience comes from purchasing and selling deals for his own two companies J P Industries Inc and JPE Inc In the 1980's Psarouthakis founded and built J P Industries into a Fortune 500 company by acquiring underperforming auto parts and plumbing products manufacturers selling the company to a British conglomerate The remaining 15% were indeterminate There is one overriding reason for this high rate of failure and that is overpaying for the acquired company Overpayment is a result of 1 an overoptimistic expectation of the market 2 a higher than realistic estimate of internal improvements developments and 3 allowing oneself into a horserace leading to an overprice due to the bidding process that the seller has succeeded to establish In order to avoid as much as possible the above this book presents a process based on many years of experience that resulted in the acquisition of over 50 deals and equivalently the sale of such acquired companies Successful Acquisition Process 16 Steps One enters into a rather specific process when one decides to acquire a business and particularly the right business You must manage and control the process if the result is to have a good chance to be the desired one The acquisitions process involved several distinct steps and sub steps that need to be attended to with extreme care and dealt with expertly and skillfully These steps are 1 Know what you want to acquire 2 Set up criteria to guide you on what you want to buy 3 Set up a plan on how you will proceed 4 Identify build your team that will work do and manage the process with you 5 Develop a network of credible sources for acquisition
