The Oxford Handbook of Linguistic Fieldwork Nicholas Thieberger, 2011-11-24 This book offers a state of the art guide to linguistic fieldwork reflecting its collaborative nature across the subfields of linguistics and disciplines such as astronomy, anthropology, biology, musicology and ethnography. Experienced scholars and fieldworkers explain the methods and approaches needed to understand a language in its full cultural context and to document it accessibly and enduringly. They consider the application of new technological approaches to recording and documentation but never lose sight of the crucial relationship between subject and researcher. The book is timely: an increased awareness of dying languages and vanishing dialects has stimulated the impetus for recording them as well as the funds required to do so. The handbook is an indispensable source guide and reference for everyone involved in linguistic and cultural work.

The Burning Saints Dimitris Xygalatas, 2014-10-14 The Anastenaria are Orthodox Christians in Northern Greece who observe a unique annual ritual cycle focused on two festivals dedicated to Saint Constantine and Saint Helen. The festivals involve processions, music, dancing, animal sacrifices and culminate in an electrifying fire-walking ritual. Carrying the sacred icons of the saints, participants dance over hot coals as the saint moves them. *The Burning Saints* presents an analysis of these rituals and the psychology behind them. Based on long-term fieldwork, *The Burning Saints* traces the historical development and sociocultural context of the Greek fire-walking rituals. As a cognitive ethnography, the book aims to identify the social, psychological and neurobiological factors which may
