Gilk, David Kast, 2012-12-07 In November 2010 Republican Scott Walker was elected Governor of Wisconsin. In something of a Tea Party sweep the iconic Russ Feingold lost his seat in the U S Senate and the Wisconsin legislature became Republican in both chambers. In early 2011 Governor Walker announced a budget repair bill that among other things gutted collective bargaining rights for most public sector unions. Outraged citizens occupied the state capitol for weeks in an outpouring of opposition the likes of which had not been seen in Wisconsin since the protests against the war in Vietnam in the 1960s. Various recall elections were held in the summer of 2011 all in regard to the state senate with another set of elections in June 2012 among them the governor's recall was paramount. Democrats regained control of the senate but Scott Walker defeated Milwaukee mayor Tom Barrett and kept the governor's mansion. Many Democrats were stunned by the failed recall. These essays probe that failure. Every contributor has a unique perspective but lurking near the core of that probing are two key issues: the extent to which corporations have taken over government and whether ecological crises are revealing conventional politics as complicit in disaster. **Blast, Corrupt, Dismantle, Erase** Brett Josef Grubisic, Gisèle M. Lee, 2014-06-16 What do literary dystopias reflect about the times? In *Blast Corrupt Dismantle Erase* contributors address this amorphous but pervasive genre using diverse critical methodologies to examine how North America is conveyed or portrayed in a perceived age of crisis: accelerated uncertainty and political volatility. Drawing from contemporary novels such as Cormac McCarthy's *The Road*, Neil Gaiman's *American Gods* and the work of Margaret Atwood and William Gibson to name a few, this book examines dystopian literature produced by North American authors between the signing of NAFTA 1994 and the tenth anniversary of 9/11 2011. As the texts illustrate, awareness of and deep concern about perceived vulnerabilities—ends of water, oil, food, capitalism, empires, stable climates, ways of life, non-human species and entire human civilizations—have become central to public discourse over the same period. By asking questions such as "What are the distinctive qualities of post-NAFTA North American dystopian literature?" and "What does this literature reflect about the tensions and contradictions of the inchoate continental community of North America?" *Blast Corrupt Dismantle Erase* serves to resituate dystopian writing within a particular geo-social setting and introduce a productive means to understand both North American dystopian writing and its relevant engagements with a restricted mapped reality. *Just Sustainability* Christiana Peppard, Andrea Vincini
