provides essential tools to elevate their expertise as it covers various topics. Meanwhile, community practitioners will greatly benefit from evidence-based guidelines and protocols presented in the book. The new edition of Sutton retains the overall format, presentation style, and comprehensive coverage of the previous editions. Significant advances in imaging techniques and newer applications of different modalities have been incorporated in all sections. Radiology lexicons and updated classification systems for various diseases have been included. There is emphasis on differential diagnosis, appropriateness criteria, and disease management. Salient features have been highlighted as imaging pearls and teaching points. New sections for Imaging Physics, Principles of Imaging, Emergency Radiology, Pediatric Radiology, and Nuclear Medicine have been added to make the book more comprehensive. Crucial topics on patient safety, quality assurance, and structured reporting have been included to help radiologists become processes driven and ensure better patient care. Chapters on Information technology and Artificial intelligence introduce residents to the digital environment that we live in and its impact on day-to-day practice. A section on Interventional Radiology has been included to enable residents to get a deeper understanding of this subspecialty and explore its scope in modern medicine. This edition of Sutton is aimed at presenting an exhaustive teaching and reference text for radiologists and other clinical specialists.

Public Health, Public Health Education, and their Future Prospects Xuele Ma, Hubing Shi, Yihui Du, Wenhao Cai, 2024-04-15

A number of studies have pointed out that currently, medical schools may have failed to supply self-directed lifelong learners and qualified healthcare workers. Therefore, in recent years, the medical teaching modes have been consistently reformed. The new generation of novel education modes such as Research-Based Learning (RBL), Problem-Based Learning (PBL), Team-Based Learning (TBL), have the characteristics of universality, interactivity, and promptness, which empower instructors and students to learn and grow together. Moreover, the reform of medical teaching modes has been significantly facilitated in the COVID-19 era due to public's rising awareness of public health and more obviously pandemic prevention policies such as travel restrictions. For instance, many countries have launched remote teaching mode in order to provide consistent education service with high quality. These novel teaching modes can provide amelioration to the traditional education modes and may
