Exampler 2014:

Posthuman Bliss? Susan B. Levin, 2020-12-03 A tightly argued and expansive examination of the pitfalls of transhumanism that reacquaints us with what it means to live well Advocates of transhumanism or radical enhancement urge us to pursue the biotechnological heightening of select capacities above all cognitive ability so far beyond any human limit that the beings with those capacities would exist on a higher ontological plane For proponents of such views humanity's self transcendence through advancements in science and technology may even be morally required Consequently the human stakes of how we respond to transhumanism are immeasurably high In *Posthuman Bliss The Failed Promise of Transhumanism* Susan B Levin challenges transhumanists overarching commitments regarding the mind and brain ethics liberal democracy knowledge and reality showing their notion of humanity's self transcendence into posthumanity to be little more than fantasy Uniting philosophical with scientific arguments Levin mounts a significant challenge to transhumanists claim that science and technology support their vision of posthumanity In a clear and engaging style she dismantles transhumanists breezy assurances that posthumans will emerge if we but allocate sufficient resources to that end Far from offering theoretical and practical proof of concept for the vision that they urge upon us Levin argues transhumanists engage inadequately with cognitive psychology biology and neuroscience often relying on questionable or outdated views within those fields Having shown in depth why transhumanism should be rejected Levin argues forcefully for a holistic perspective on living well that is rooted in Aristotle's virtue ethics but that is adapted to liberal democracy This holism is thoroughly human in the best of senses It directs us to consider worthy ends for us as human beings and to do the irreplaceable work of understanding ourselves rather than relying on technology and science to be our salvation

International Practices to Promote Budget Literacy Harika Masud, Helene Pfeil, Sanjay Agarwal, Alfredo Gonzalez Briseno, 2017-08-09 Budget literacy is defined as the ability to read decipher and understand public budgets to enable and enhance meaningful citizen participation in the budget process It is comprised of two main parts i a technical understanding of public budgets including familiarity with government spending tax rates and public debt and ii the ability to engage in the budget process comprising of practical knowledge on day to day issues as well as an elementary understanding of the economic social and political implications of budget policies the stakeholders involved and when and how to provide inputs during the annual budget cycle Given that no international standards or guidelines have been established for budget literacy education to date this book seeks to address this gap by taking stock of illustrative initiatives promoting budget literacy for youth in selected countries The underlying presumption is that when supply side actors in the budget process governments simplify and disseminate budget information for demand side actors citizens this information will then be used by citizens to provide feedback on the budget However since citizens are often insufficiently informed about public budgets to constructively participate in budget processes one way to empower them and to remedy the problem of budget illiteracy is to provide budget literacy education in schools to youth helping them evolve into civic minded adults with the essential knowledge needed for analyzing their government's fiscal policy objectives and measures and the confidence and sense of social responsibility to participate in the oversight of public resources This book elaborates on approaches learning outcomes pedagogical strategies and assessment approaches for budget literacy education and presents lessons that are relevant for the development improvement or scaling up of budget literacy initiatives

Transparency in Assessment - Exploring the Influence of Explicit Assessment Criteria Anders Jönsson,Frans Prins,2019-04-03 In many schools and higher education institutions it has become common practice to share assessment criteria with students Sometimes it is required for accountability purposes at other times criteria are used as a means to communicate expectations to students However the idea that explicit assessment criteria should be shared with students has been contested On the one hand research has shown that explicit criteria may positively affect student performance reduce their anxiety as well as support students use of self regulated learning strategies On the other hand there are fears that explicit criteria may have a restraining influence on students learning as well as limiting their autonomy and creativity There are also indications of students becoming more performance oriented as opposed to learning oriented when being provided with explicit assessment criteria Taken together it is not fully understood under which circumstances it is productive for student learning to share explicit assessment criteria and under which circumstances it is not In particular empirical research on the proposed negative effects of sharing criteria with learners is limited and most fears voiced in the literature are based on individual experiences and anecdotal evidence In this book we therefore bring different perspectives on transparency in assessment together in order to further our understanding of how students are influenced by the use of explicit assessment criteria A deeper understanding of the influence of explicit assessment criteria on students understanding of criteria motivation and learning is equally imperative for future research and educational practice both of which need to go beyond individual opinions and convictions

The Armenian Adaptation of the Ecclesiastical History of Socrates Scholasticus Robert W. Thomson,2001 The Ecclesiastical History by Socrates Scholasticus had an unusual transmission in Armenia In 695 the first translation made in the sixth century was completely revised It was much abbreviated and changed while at the same time additions of various kinds were introduced Now for the first time that adapted text of the Ecclesiastical History is translated from the classical Armenian In this English rendering all the additions to the original text are highlighted and studied from the perspective of earlier Armenian literary and theological traditions The Introduction assesses the possible motives for this adaption of a well known History at the end of the seventh century Similar Armenian reworkings of foreign Histories the Georgian Chronicles and the Syriac Chronicle of the Patriarch
