an effective strength and conditioning practitioner requires the development of a professional skills set and a thorough understanding of the scientific basis of best practice. Aimed at advanced students and novice to expert practitioners in this book the authors explore the latest scientific evidence and apply it to exercise selection and programming choices across the full range of areas in strength and conditioning from strength and power speed and agility to aerobic conditioning. Since the first edition of this text was written extensive research has expanded the supporting evidence base that provides the theoretical foundation for each chapter. In addition some areas that were previously under researched have now been expanded and some key concepts have been further challenged. Each chapter is written by experts with experience in a wide variety of sports including both applied and research experience ensuring this concise but sophisticated textbook is the perfect bridge from introductory study to effective professional practice. While advanced concepts are explored within the book the coach must not forget that consistency in the application of the basic principles of strength and conditioning is the foundation of athletic development. **Advanced Strength and Conditioning: An Evidence based Approach** is a valuable resource for all advanced students and practitioners of strength and conditioning and fitness training. **Advanced Sports**

**Training Program for Football, Speed, Advanced** D. F. J. Smith, 2016-12-02. A 12 week strength conditioning training program for Football focusing on speed development for an advanced level. DS Performance have created an exclusive series of sport specific strength conditioning training programmes that have underpinning evidence based training methods which have been put in place to improve your performance for all ages and abilities. All programmes have been designed to develop each specific performance variable through the progression of intensity and volume. Along with your training program this book contains a supporting guide to mobility training. This guide uses myofascial release static stretching and activation work to mobilise the major body parts used in training. It has been put in place to increase your mobility it can also be used to support your warm ups and cool downs. To aid your training we also included a series of tables to create your lifting percentages. These tables will help you work out your working percentages from 40% 95%. The tables are broken down into 5% loads all in kilograms ranging from 10kg 300kg. All programmes by DS Performance are 12 weeks in duration we recommend that you do two six week training blocks with a de loading week between the two training blocks. This will allow the body to recover prepare you for the second training phase and reduce any risk of injury. Football like so many of the team sports is a multi directional explosive sport where a players ability to perform skills at a multi pace ever changing environment is essential. So speed strength acceleration agility and sheer power are all very important performance variables to develop in the modern game. This is why our programmes have been designed to develop the key physical attributes for
