Analysis Susan M. Gass, Antonella Sorace, Larry Selinker, 2013-05-13 The purpose of this workbook is to provide students with practice in analyzing second language data For the student of second language learning hands on experience with actual data is essential in understanding the processes involved in learning a second language Working through exemplars of the kinds of interlanguages that learners do and do not create brings about a clearer understanding of the principles underlying these interlanguages as well as the universal principles of language learning those that are independent of particular languages and interlanguages The goal in this workbook is to present data organized in such a way that by working through pedagogically presented data sets students are led to a discovery and understanding of theoretical and or methodological issues In addition they acquire the ability to interpret data and to begin to draw conclusions from them The authors intend that students should go from the data to a conclusion that includes a 3 part statement what else you should want to know about these data why this specifically and not something else and how one can empirically research what you want to find out This sequence of questions forces students to constantly keep in mind the important question of falsification What kind of data would it take to falsify the particular conclusions the students come to As with the earlier edition of this workbook Sorace Gass a three part set workbook manual tapes is also available

The Quick and Dirty Guide to Learning Languages Fast

Mykel Hawke, 2019-03-26 There are many reasons why you might need to learn a foreign language quickly perhaps an unexpected business trip or a sudden travel opportunity A G Hawke a U S Army

Green Beret often travels to foreign countries on short notice and has been able to work intimately with officials who do not speak English. Frequently he needs to be able to communicate in a foreign language in a matter of days or weeks. He tried all types of schools, classes, books, and tapes but none delivered what he needed when he needed it. Subsequently, he developed his own method for learning languages. It proved so effective for him he is certified by the military in seven languages and his fellow Green Berets that he decided to share it with others who are struggling to learn a foreign language on the quick. The Quick and Dirty Guide to Learning Languages Fast is designed for people who have no time for learning complicated rules of grammar. Hawke promises that his method will help anyone become functional in any language in as little as seven days and proficient in thirty days. How? Because he has trimmed that fat for you, freeing your time for what's truly useful. Hawke provides a detailed day-by-day schedule, a hands-on workbook format, and secret tips to help you master the key elements of any new language. In true Special Forces style, this quick and dirty method contains no fluff; it's all action so you can quickly get into the action yourself. If your mission is to learn a foreign language, why not learn how from the very best. **Learning**

To Speak P. R. Zelazo, R. B. Kearsley, J. A. Ungerer, 2014-02-25. First published in 1984. The reissue of this manual is timely for two reasons. The dramatic increase in the incidence of autism and the use of this program with children who have autism and their parents since 1984 by one of the authors, PRZ. This manual has been used successfully to produce spontaneous three-word sentences in the majority of children in the original Boston sample, i.e., those with normal information processing ability in clinical cases seen subsequently at the Montreal Children's Hospital until May 2002 and those treated at the Montreal Autism Centre currently. In all these cases, the manual has been used under the guidance of a professional who was skilled with these procedures: originally the three authors, two psychologists and a behavioral pediatrician, psychologist RBK.

A Linguistic Guide to Language Learning William Gamwell Moulton, 1966. *Helping People Learn English* Earl W. Stevick, 1957. This is a manual that will be brief enough and readable enough for the most casually interested beginner but which will be useful and sound and will direct the reader to more complete treatments of the same subject matter. While teachers of English will be able to use this handbook, it is aimed at those who may need to serve as unofficial language tutors in order to facilitate everyday communication in the course of their official duties: members of the military, the diplomatic corps, business persons, and their family members, especially when serving in other countries.
