Shannon Carlin TIME 100 Must Read Books of 2024 After more than a decade of stability or improvement the mental health of adolescents plunged in the early 2010s. He then investigates the nature of childhood including why children need play and independent exploration to mature into competent thriving adults. Haidt shows how the play based childhood began to decline in the 1980s and how it was finally wiped out by the arrival of the phone based childhood in the early 2010s. He presents more than a dozen mechanisms by which this great rewiring of childhood has interfered with children's social and neurological development covering everything from sleep deprivation to attention fragmentation addiction loneliness social contagion social comparison and perfectionism. He explains why social media damages girls more than boys and why boys have been withdrawing from the real world into the virtual world with disastrous consequences for themselves their families and their societies. Most important Haidt issues a clear call to action. He diagnoses the collective action problems that trap us and then proposes four simple rules that might set us free.
