False Worship 1:

The Birthing of the New Testament Thomas L. Brodie, 2004 Many are saying that the prevailing paradigm of New Testament origins is going nowhere In its place Brodie s stunning book invites us to suspend all knowledge we already have about the history of the New Testament s development and to be willing to entertain the following thesis Everything hinges on Proto Luke a history of Jesus using the Elijah Elisha narrative as its model which survives in 10 chapters of Luke and 15 of Acts Mark then uses Proto Luke transposing its Acts material back into the life of Jesus Matthew deuteronomizes Mark John improves on the discourses of Matthew Luke Acts spells out the story at length Add the Pauline corpus the descendant of Deuteronomy via the Matthean logia and the New Testament is virtually complete This is a totalizing theory an explanation of everything and its critics will be numerous But even they will be hugely intrigued and have to admit that Brodie s myriads of challenging observations about literary affinities demand an answer **Demonology and Witchcraft** Robert Brown, 1889
