## **Families Of Two Interviews With Happily Married Couples Without Children By Choice:**

**Families of Two** Laura Carroll,2000-09-26 According to American Demographics magazine by the year 2010 the number of married couples without children is expected to increase by nearly 50% to nearly 31 million The non profit organization Childless By Choice reports that one in seven married couples in the United States is consciously deciding not to have children For more married couples than ever before their life plan together does not include raising a family Yet as these numbers grow in many ways society continues to frown on the choice not to have children Although more couples are making this decision they often feel misunderstood and face societal misperceptions about themselves their marriage and their choice not to have children Through candid interviews and photographs Families of Two Interviews with Happily Married Couples Without Children by Choice takes us into the lives of happily married couples without children by choice It dispels the myths often associated with this choice helps couples who are deciding whether to have children and offers insight to friends and family of couples who have chosen or may choose not to have children Families of Two expands our ways of understanding marriage in today s society and gives examples of roadmaps for marriage without children Families of Two celebrates the many people who are living lives that do not include parenthood and the many ways to live happily ever after

**Voluntary and Involuntary Childlessness** Natalie Sappleton,2018-08-23 While interest in the drivers consequences nature and manifestations of voluntary and involuntary childlessness increases knowledge progress is hampered by poor linkages across disjointed research fields The book brings together theoretical insights and empirical investigations into the phenomenon united within a feminist conceptual framework **Complete Without Kids** Ellen L. Walker,2011 Examines the rewards and challenges childfree adults face living in a world that celebrates traditional families offering advice on how to cope with the pressure of friends and family to have children taking advantage of leisure time and financial considerations

**Childfree by Choice** Dr. Amy Blackstone,2019-06-11 From Dr Amy Blackstone childfree woman co creator of the blog we re not having a baby and nationally recognized expert on the childfree choice comes a definitive investigation into the history and current growing movement of adults choosing to forgo parenthood what it means for our society economy environment perceived gender roles and legacies and how understanding and supporting all types of families can lead to positive outcomes for parents non parents and children alike As a childfree woman Dr Amy Blackstone is no stranger to a wide range of negative responses when she informs people she doesn t have nor does she want kids confused looks patronizing quips thinly veiled pity even outright scorn and condemnation But she is not alone in opting out when it comes to children More people than ever are choosing to forgo parenthood and openly discussing a choice that s still often perceived as taboo Yet this choice and its effects personally and culturally are still often misunderstood Amy Blackstone a professor of sociology has been studying the childfree choice since 2008 a choice she and her husband had already confidently and happily made Using her own and others research as well as her personal experience Blackstone delves into the childfree

movement from its conception to today exploring gender race sexual orientation politics environmentalism and feminism as she strips away the misconceptions surrounding non parents and reveals the still radical notion that support of the childfree can lead to better lives and societies for all

The Baby Matrix Laura Carroll, 2012-05-17 In the movie The Matrix the character Morpheus offers two pills to Neo if he takes the blue pill he will go on with life as he has before believing what he has always believed If he takes the red pill he will find out what the matrix really is and many of his earlier beliefs will be shattered When it comes to taking a hard look at a specific set of beliefs about parenthood and reproduction that has driven our society for generations The Baby Matrix is the red pill The Baby Matrix looks at long held beliefs about parenthood and reproduction and unravels why we believe what we believe It lays out We commonly think our desire to have children boils down to our biological wiring but author Laura Carroll says it s much more than that Unlike other books on parenthood The Baby Matrix Why Freeing Our Minds From Outmoded Thinking About Parenthood Reproduction Will Create a Better World takes a serious look at powerful social and cultural influences that drive the desire for the parenthood experience and lays out why we need to be very aware of these influences to make the most informed decisions about parenthood the historical origins of beliefs about parenthood and reproduction why many of these beliefs no longer work for society or were never true in the first place why we continue to believe them anyway the prices society pays as a result The Baby Matrix shows us how we got here brings to light what is true which includes knowing about the powerful influence of pronatalism and explains why society can no longer afford to leave pronatalism unquestioned This is not a book about convincing people not to have children says Carroll I want people to be very aware of the long held social and cultural pressures and be able to free themselves from those pressures when making parenthood choices This will result in more people making the best decisions for themselves will foster a society in which those who are best suited to become parents are the ones who have children and one that knows what it means to bring a child into the world today This book will make you examine your own intentions and beliefs will rile you and might just change your mind Whether you are already a parent want to become a parent are still making up your mind or know you don t want children you ll never think about parenthood in the same way The Baby Matrix is a must read for anyone interested in psychology sociology anthropology parenting issues environmentalism and social justice But most of all it s for anyone parent or not who reveres the truth and wants the best for themselves their families and our world
