 Joanne Hollows,2008-03 This is an extremely useful text for undergraduate students studying domestic cultures as a cultural  
 social or historical phenomenon It is well organised and easy to follow and can be dipped into with ease Popular Narrative  
 Media Although home is central to most people s experience of everyday life the meaning of home is often taken for granted  
 In this accessible and student friendly introduction to domestic cultures Joanne Hollows surveys current thinking and  
 approaches to demonstrate why home is so central to our lives Domestic Cultures examines which meanings and values have  
 been associated with home and demonstrates how these have been transformed and reworked in different historical contexts  
 The book shows that while certain meanings of domestic culture are frequently produced for us these can be negotiated and  
 resisted through everyday home making practices She demonstrates how elements of domesticity have been dislocated and  
 mobilized within public life This wide ranging text challenges a range of ideas about domestic culture It examines how the  
 meanings of domestic life are produced across a range of discourses and practices from architecture lifestyle media and  
 advertising to home decoration cooking and watching television The book demonstrates how domestic cultures are not only  
 linked to particular ideas about gendered identities but how they are also differentiated by class race and sexuality Domestic  
 Cultures is a key introductory text for media sociology and cultural studies students **The Spectator** ,2004 **Sami**
