Families At Work Expanding The Bounds:

Expanding the Boundaries of Work-Family Research S. Poelmans, J. Greenhaus, M. Las Heras Maestro, Mireia Las Heras Maestro, 2013-01-02 With contributions from thirty authors from fifteen countries this is a white book for international work family research and practice The authors offer a bold look at the future and provide guidelines for future research focusing on applied international work family research *Families at Work* Naomi Gerstel, Dan Clawson, Robert Zussman, 2002 What is the relationship between work and family in a world where employment creates endless tensions for families and families create endless tensions for the workplace This collection of reprinted and original articles broadens this discussion by addressing issues from the perspectives of often neglected populations from white middle class women with young children to people of color to poor families to the new sorts of families gays and lesbians are struggling to construct to fathers to older children To discuss work and family is also to discuss gender Ranging from California's Silicon Valley to a remote fishing village in the northeast part one shows how new work arrangements have created new expectations for what it means to be a woman or a man and how slow and uneven the pace of change can be Nowhere are the tensions of work and family more potent than around childcare Part two takes up these tensions showing how various solutions to caring for children of all ages whether infants or teenagers create new problems Parts three and four turn outward to show how the new relationships between families and work are changing the relationships between families and the communities in which they live and generating new social policy dilemmas **Expanding the Boundaries of Job Satisfaction** Teresa Jean Rothausen, 1994 **The Changing Realities of Work and Family** Amy Marcus-Newhall, Diane F.
